## ABOUT THE CALGARY LANGUAGE NERDS

We teach **8 foreign languages** to children, teenagers, and adults alike. Our tutors are not only skilled at what they do, but are also highly adaptable and friendly. No matter what your level is, we have a tutor who can make the language learning process as simple and enjoyable as possible.

English

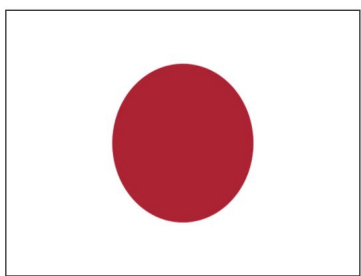

French

German

Gujarati

Japanese

Mandarin

Russian

Spanish

The business was founded in late 2016. Since then, **over 700 people have used our services to move towards their fluency goals.** We're proud of what we've accomplished so far and are eager to keep growing! It sure has been a fun journey.

Aside from teaching languages, **we also care deeply about community.**

For this reason, we organize hundreds of fun social events and free classes for language learners every year.

This is a picture of a group of us about to attend a Latin American street festival 😊

## **MY GOALS FOR THE BUSINESS**

Even though I've come a long way since 2016, there is a lot more I'd like to accomplish. Here are the primary goals I'm working towards:

### **Goal #1 - Find 40 New Students**

**Japanese:**  
*Seeking 20  
new students*

**Mandarin:**  
*Seeking 10  
new students*

**Spanish:**  
*Seeking 10  
new students*

My Japanese, Mandarin, and Spanish tutors have openings in their schedules that they'd like to have filled. They love their respective languages and are eager to share that passion with others.

## Goal #2 - 250 Event Attendees per Week

I care not only about finding new students, but also about **growing the community side of my business.** Friendship & being a part of a community are crucial elements to having good mental health.

Currently, there are about 80-100 people who attend the free social events and classes we organize every week. **I would like to increase this to 250 weekly attendees** in the near future.

## Goal #3 - Social Media Growth

Few people have the depth of experience and knowledge as I do when it comes to acquiring foreign languages. **I want to pass this knowledge on to as many people as I can.**

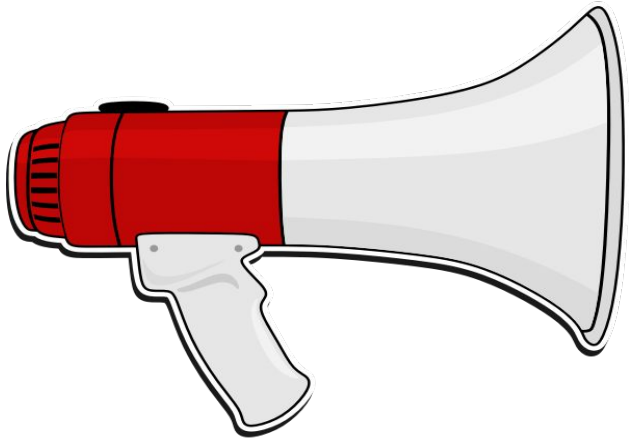

Increasing my audience size and engagement numbers is one way I can help more language learners along their linguistic journey. I don't have a specific number attached to this goal. It is simply something I focus on.
